February 2020

***Resourcefulness *Resilience *Reasoning *Responsibility *Reflection**

Dear Parents and Carers,

I hope everyone had a nice half term and enjoyed their family time together. The children have gotten off to a fantastic start this half term and are hard at work.

The children were able to watch Alice in Wonderland on Monday morning. The theatre company put on a fantastic show and the children commented afterwards that it was brilliant and very funny. Year 6 had a fantastic opportunity as part of our travel plan to go out and work with a police officer this week. The children were able to ask questions of individuals who were stopped for speeding. The Year 6 children represented the school very well and were able to have an impact on our surrounding community. Well done Year 6!

March is going to be a very busy month at Deneholm and we have lots of exciting events planned for the children. Sport Relief will now take place on Friday 13th March so please keep your eyes peeled for more details.

Mrs Robinson

WORLD BOOK DAY

World Book Day will be celebrated on Thursday 5th March. This will be a non-uniform day and children are invited to come into school dressed as their favourite story book character. We are encouraging the children to choose a story book character rather than a film or superhero character.

On this day, we would like to invite you into your child's class between 2:45-3:05pm to enjoy some

reading time with your child. If you have more than one child in school, you will be able to spend time in each class.

We will also be holding our popular Bedtime Stories on Thursday 5th March from 6-6:45pm. A letter was emailed home about this event on Monday 24th February.

SIMSPAY

If you have not yet signed up to SimsPay please call the school office on 01375 373405 and a new activation code will be sent to you. All dinner money, trips, clubs and Bedtime Stories will be booked on SimsPay.

SCIENCE CORNER

This week, KS1 and KS2 Rainbow Rooms carried out a science experiment by making bouncy eggs. Children were given opportunities to write their predictions before they carried out the experiment. After observing how the eggs were changing over a period of three days, the children were thrilled about the outcome. They then had a brilliant time bouncing the eggs on smooth surfaces. Why don't you have a go at making a bouncy egg at home? Visit this link for a step by step guide:
