

We have used our key words for our science topic, plants, in our writing so that we use the correct science terminology.

We enjoy sharing our science work with each other. It is always great when we can go outside to discuss our learning.

Another photo of our nature walk around the school. The children were looking at the algae on the pond and wondering what might live below...

Year 2 went on a nature walk around school to look for living things including animals and plants. We found so many signs of MRS GREN.
